

“Starting on TPN has been the **best thing that has ever happened** to me... it has given me back my social and work life.”

#HANweek2021

## Listen to Alan's story, because every patient's experience is unique.

Total parenteral nutrition at home may help to provide people like Alan with the opportunity to regain their independence. Fresenius Kabi manage the transition from hospital to home, with the aim of supporting patients' quality of life through continuity of care.

Clinicalnutrition.ie is created and funded by Fresenius Kabi and contains brand and promotional information.
