

Managing Malnutrition in Residential Care Settings for Older People During Covid-19¹

What to do if a resident is at risk of malnutrition* or consuming less than 50% of their meals and/or has lost more than 2kg in the past month:

- Commence on high protein, high calorie diet
- Offer additional high protein, high calorie snacks
- Offer regular drinks
- Consider prescribing Vitamin D
- Prescribe Oral Nutritional Supplements (ONS) as recommended in the HSE Nutrition Support Pathway

How can Fresenius Kabi support the Covid -19 Nutrition Support Pathway for Residential Care Settings for Older People¹

1. HSE Nutrition Supports Pack for Residential Care Settings for Older People during Covid-19, V2 October 2020
*as per a validated screening tool e.g. Malnutrition Universal Screening Tool (MUST)

What do you if your resident has additional nutritional needs?

INCREASED ENERGY Fresubin® 5kcal Shot 	ADDITIONAL FIBRE Fresubin® 2kcal Fibre Mini Drink 	FOOD & DRINK THICKENER Thick & Easy™ Clear
